

The Get Real Guide

101 of the UK's best quirky, independent shops & mail order companies

**Brought to you by Period Features,
the department store for period homes
www.periodfeatures.net, tel. 01538 372202**

A fabulous collection of Britain's best unique and specialist shops – created with passion, imagination and sincerity, rather than just an eye on the bottom line.

Whether you wish to support some of the finest small businesses in the country or are simply in need of retail therapy, these shops and mail order companies will inspire and delight you. With the emphasis on great products, a warm welcome and good old-fashioned service, they provide something real in an increasingly artificial world.

101 of the UK's best quirky, independent shops & mail order companies – brought to you by Period Features, the department store for period homes
www.periodfeatures.net, tel. 01538 372202

How many shops do you know which are worth a special journey? Shops with soul and substance – created with passion, imagination and sincerity, rather than just an eye on the bottom line. Shops which give you the sense of joy that comes from something done exceptionally well. Shops with staff who really know their stuff. Shops which provide a genuine welcome and the good old-fashioned service which is so often lacking today.

Not very many, do I hear? We aim to point you in the direction of such establishments. They do exist, and this guide brings many of them together. I personally set up one of the shops in this guide, so I appreciate first-hand the joys and tribulations of running a small business. It can sometimes be very difficult, requiring courage, inspiration, persistence and a great deal of hard work. Good shops deserve our support and encouragement. I hope this ebook will make it easier for you to seek them out and do just that.

What *won't* you find on these pages? Snooty shop assistants who look upon you with disdain for interrupting their conversations. Bored, indifferent youths who know nothing about what they are selling. Piped muzak is a definite no-no, as are the same old products you see everywhere else... Nor will you encounter anything corporate, as this is not in the spirit of the book. No chain stores with irritating phone systems where you can never call a particular shop, only a central number. None of the infuriating bureaucracy and inflexibility

so often found in larger stores. In brief, these shops are a far cry from the institutionalised mediocrity of the high street.

You may already be familiar with some of the places in this guide. Others are not very widely known, so we hope to have put quite a few hidden gems on the map. All the shops have been personally selected by us here at Period Features; we love them all. I hope you enjoy them as much as we did!

Please do get back to us with your feedback, or suggest shops and mail order companies which you feel deserve a place in the guide. We look forward to hearing from you, as this will help us to improve the guide further and bring out an even bigger edition next time.

Lucie Storrs
